OUR STORY

DEFINING THE NEW RULES OF ENGLISH SPARKLING WINE

Located in Luddesdown, Kent - **Silverhand** takes its name from King Ludd - a first century King of the Trinovantes, founder of London and God of Protection and Prosperity. Losing his hand in battle, he was stripped of his rank and position until a **Silverhand** was made for him...

More recently we have established the largest single vineyard in the UK, spanning the beautiful countryside in the heart of Kent. With a wide range of wines from still to sparkling, red, white and rosé we are passionate about our craft and showcasing the exceptional wines that we produce.

SUSTAINABILITY AND PROTECTING OUR ENVIRONMENT

Nestled in the heart of the picturesque Kent countryside, Silverhand Estate is a hidden gem that offers a unique blend of natural beauty and rich heritage. It is defining the new rules of English sparkling wine having, established the largest single organic vineyard in the UK, covering an area of more than 700 acres.

We are proud to be situated in an Area of Outstanding Natural Beauty and we are passionate about protecting our environment and the land in which we reside. We are members of Sustainable Wines GB and the Regenerative Viticulture Foundation, with our vineyards certified Organic by Demeter.

Our organic farming methods are a sustainable and low impact approach to agriculture that prioritizes the health of the soil, and the environment, to deliver exceptional English wines of the highest quality, so that our consumers can be proud to **Drink English**. We have a dedicated estate Conservation team who work tirelessly, throughout the year, to ensure the flora and fauna can thrive whilst working in harmony with our vineyards.

We have Biodiversity net gain of over 800% within our organic and natural hedgerows, with over 20k hedgerow plants having been put in the ground over the last 3 years. Our Vineyard team recycle all agricultural waste produced on the estate through a dedicated organic composting zone. Within our vineyards we employ organic management practices, in-row cover cropping, and zero usage of synthetic chemicals which promotes a thriving ecosystem.

Hawkstone

The UK's Fastest Growing Brewery

Beer from the farm

Jeremy put blood sweat and tears into growing his barley (well Kaleb did), so he wasn't going to let it become animal feed and decided to brew the world's best beer instead.

Hard to make. Easy to drink.

- Beers brewed with 100% British Barley.
- Ciders pressed with 100% fresh British apples.
- Brewed with graft, not gimmicks.
- Award-winning flavour that delivers.
